SKILLS

- **Programming Languages** : Java
- **Libraries and Frameworks** : Spring Boot, Hibernate, Spring, Redis
- **Tools** : MySQL, PostgreSQL, AWS, Git, GitHub, Maven, NoSQL
- **Other Skills** : System Design, Microservices, Data Structures and Algorithms, Design Patterns, Unit Testing

EXPERIENCE

Software Development Engineer (Backend)

Jan 2024 - Present

Anebal Solutions Pvt. Ltd

Pune

- Developed a feature to notify customers about their billing cycle by adopting new REST APIs, hence enhancing user experience for over 100 million customers
- Implemented Stripe payment gateway integration and OAuth 2.0 authentication for secure transactions..

Backend Engineer

Jun 2022 - Dec 2023

Profinch Solutions Pvt. Ltd

Bengaluru

- Designed and developed RESTful APIs for seamless communication between frontend and backend.
- Optimized PostgreSQL schema design, resulting in a 35% reduction in report generation time and significantly enhancing overall application performance.
- Leveraged Spring Boot to address 30% of issues in the UBCI Project, boosting backend efficiency and contributing to project success.
- Implemented automated testing strategies, increasing code coverage by 40% and reducing bug rate.

PROJECTS

E-Commerce Application | Java, Spring Boot, JPA, MySQL, Microservices

<https://github.com/swapnil699/E-Commerce-Application-Java-Spring-Boot-JPA-MySQL-Microservices.git>

- Developed and integrated over 4 microservices to streamline user management, product cataloging, and payment processing, resulting in an enhanced user experience.
- Implemented Stripe payment gateway integration and OAuth 2.0 authentication for secure transactions.
- Integrated Redis caching to optimize performance, improving response times from 500ms to 20ms.
- Engineered an event driven email service using Kafka for real-time notifications.
- Applied paging, sorting, searching and deployed the application in AWS EBS.

Smart Contact Manager

<https://github.com/swapnil699/Contact-management.git>

- Developed a Smart Contact Management system with secure user authentication and profile management.
- Implemented CRUD operations for contacts with search functionality and pagination for efficient management.
- Designed robust password management system with change password and OTP-based forgot password functionality.
- Integrated email verification for user authentication and dynamic profile updates with profile picture support.

ACHIEVEMENTS

- Solved over 500 DSA challenges at Scaler Academy, consistently ranking within the top 10% of learners.

EDUCATION

Scaler

2024

Specialized in Software Development & Problem Solving

Coursework: Data structures and Algorithms, Low-Level Design (LLD), High-Level Design (HLD), Java Backend

Ashokrao Mane Group of Institutions

2021

B.Tech | 7.8 CGPA
