bswapnil699@gmail.com

Skills

- Java, Core java, Object-Oriented-Programming, Data Structure Algorithm, MySQL, PostgreSQL, DBMS, Unit Testing, Spring Boot, Microservices, BPMN, Angular, CSS, HTML, Problem Solving, Backend Development, Spring MVC

Experience

Backend Engineer   Jun 2022 - Dec 2023
Profinch Solutions Pvt. Ltd   Bengaluru

- Developed invoice schedulers by collaborating on both the UI (User Interface) and backend functionalities. Leveraged JavaScript (LWC - Lightning Web Components) and Core Java, integrated REST APIs, and employed SQL for efficient data management.
- Implemented Ftest automation and UPL loggers while overseeing availability monitoring for all APIs. Proficiently handled Cron job schedulers and Async APIs as part of project responsibilities.

Engineering Intern   Mar 2021 - Mar 2022
Mazagon Dock Shipbuilders Limited   Mumbai

- Developed Strategically conceived, designed, and deployed an extensive subscription feature aligned with end-user demands.
- resulting in increased revenue streams and elevated user satisfaction within the organization.It has increased company revenue by 20%.

Projects

Bank Manegement System
https://github.com/swapnil699/Bank-Management-System-Project

- Led Java and MySQL-based Bank Management System development for seamless user and account management.
- Enhanced operational efficiency and security with advanced transaction processing features.
- Demonstrated software engineering expertise for tailored banking solutions.

Current Weather Showcase
https://github.com/swapnil699/Weather-Project

- Developed "Current Weather Showcase," a comprehensive weather application using Java with core functionality including real-time weather updates and city-specific details retrieval.
- Utilized Java to fetch and display detailed weather insights such as temperature, humidity, wind speed, and current conditions, providing users with accurate and up-to-date information.
- Demonstrated proficiency in core Java programming while designing.

Achievements

- Coding

Ranked 1000th in Interview Weekly Challenge and 423rd in Scaler tct Contest, with a track record of solving over 500+ DS and algorithm questions.

- BackEnd Certification Course

Attained DSA, SQL, LLD Certification, mastering essential algorithms and techniques in supervised and unsupervised learning, neural networks, and model evaluation

Education

Scaler   2024
Specialized in Software Development & Problem Solving

Ashokrao Mane Group of Institutions   2021
BE/B.Tech/BS
